Yes, the WM Markets Mobile App is available on both the App Store and Google Play.

Through the WM Markets app, you can create and manage your trading accounts, make deposits and withdrawals, review your performance, receive market alerts, and monitor the markets using live charts and analytics. It is designed to give you full control of your account activity from your mobile device.

When you are ready to trade, you can use the MT4 or MT5 mobile applications on Android or iOS. Simply log in with your WM Markets account ID and registered password. Your server name and account number are displayed in the home section of the WM Portal, where all your live and demo accounts are listed.

This setup allows you to manage your account through the WM app and trade seamlessly through MT4 or MT5.
