How can you earn and redeem points?

Earning points is simple—engage in predefined activities such as trading or earning passive interest on your capital, as outlined in the Loyalty Program Terms and Conditions. These activities may be periodically updated by The Company to offer even more opportunities to accumulate points.

To redeem your loyalty points:

Select the number of points you wish to redeem.
Choose the trading account where the converted points will be deposited.

The minimum redemption amount is 10 points, and the conversion value in USD depends on the total points being redeemed, ranging from $1 to $2 per loyalty point. Once you agree to the Terms and Conditions via your WM Portal, your points will be converted into your account's base currency and added to your trading account balance. This balance can then be used for trading or withdrawn in full, without any restrictions.
