# What determines the cash value of my Loyalty points?

Loyalty Rewards · https://en.wmmarkets.com/knowledge-base/loyalty-rewards/what-determines-the-cash-value-of-my-loyalty-points/

The cash value of your Loyalty points depends on the total number of points you choose to redeem. Points can be converted directly into your trading account balance, with the value per point increasing as you redeem more points.

Below is the tiered conversion structure:

| Number of Redeemable Points | Value Per Point (USD) |
|---|---|
| 10 - 99.99 | $1 |
| 100 - 999.99 | $1.2 |
| 1,000 - 9,999.99 | $1.5 |
| 10,000+ | $2 |

This tiered system incentivizes you to accumulate more points, offering higher cash values for larger redemptions.

Example 1:
If you have accumulated 326 points, you can redeem them for $391.20 (326 points x $1.20 per point).

Example 2:
If you have 1,200 points, you can redeem them for $1,800 (1,200 points x $1.50 per point).
By maximizing your points, you unlock greater rewards and increase the value of your trading account balance.
