What if I have more than one trading account?

If you maintain more than one trading account, your Loyalty Status and rewards are calculated based on the combined activity of all accounts. All closed lots and loyalty points across your accounts are aggregated, ensuring a unified calculation of your overall status and benefits.

For example:

If you close 300 lots on one account and 250 on another, your combined total of 550 lots qualifies you for Platinum Status (threshold: 500 lots).
Similarly, if you earn 6 points on one account and 4 points on another, your total of 10 points will be reflected in your Loyalty Program balance.

This system ensures that all your trading activities are considered, maximizing your rewards and benefits across multiple accounts.
