If your account’s base currency is different from USD, your redeemed points will be converted into your base currency using the current exchange rate at the time of the transaction. This ensures you receive the correct equivalent value in your preferred currency.

For example, if your account is in EUR, the points you redeem will be converted to EUR based on the prevailing USD/EUR exchange rate. This process is fully automated, allowing you to seamlessly benefit from the Loyalty Program regardless of your account’s base currency.
