How can I change the MT5 Server on my mobile?

Trading Platform · https://en.wmmarkets.com/knowledge-base/trading-platform/how-can-i-change-the-mt5-server-on-my-mobile/

To change MT5 Server for Android Mobile, follow the steps below:

1- Click on 'Manage Accounts'

2- Press the '+' tab at the top

3- Search for WM Markets and enter your account ID and password.

4- Type: “WMMarkets-REAL” for real Account or “WMMarkets-DEMO” for Demo.

In case the Server does not appear, follow the steps below:

1- Launch the mobile terminal

2- Open the app's main menu and click on the 'About' tab

3- Press and hold on the MetaTrader logo until your mobile vibrates

4- The list of Servers will be updated in few seconds

5- Log into your account

To change MT5 Server for (IPHONE) Mobile, follow the steps below:

1- Tap on 'New Account'. Search for WM Markets and enter your account ID and password. Then select the appropriate server under the “Use Existing Account” section.

2- Type: “WMMarkets-Real” for real Account or “WMMarkets-Demo” for Demo.

In case the Server does not appear, follow the steps below:

1- Launch the mobile terminal

2- Click on 'Settings' and then the 'About' tab

3- Press and hold on the MetaTrader logo until your mobile vibrates

4- The list of Servers will be updated in few seconds (this can be verified through the 'Journal')

5- Log into your account
