How can I log into the trading platform?

Trading Platform · https://en.wmmarkets.com/knowledge-base/trading-platform/how-can-i-log-into-the-trading-platform/

You can access the WM Markets MetaTrader 4 (MT4) and MetaTrader 5 (MT5) platforms through various devices and methods, ensuring flexibility and convenience for your trading needs. Here are the steps for each method:

Windows (Desktop):
• Download and Install: Visit the WM Markets website and download the MT4 or MT5 platform for Windows. Follow the installation instructions.
• Login: Open the installed platform, enter your account credentials (login ID and password), and select the appropriate server.

iPhone/iPad (iOS):
• Download the App: Go to the App Store and search for MetaTrader 4 or MetaTrader 5. Download and install the app.
• Tap on 'New Account'. Search for WM Markets and enter your account ID and password. Then select the appropriate server under the “Use Existing Account” section.

Android:
• Download the App: Visit the Google Play Store, search for MetaTrader 4 or MetaTrader 5, and download the app.
• Tap on '+' on the right corner. Tap on 'New Account'. Search for WM Markets and enter your account ID and password. Then select the appropriate server under the 'Login to an existing account' section.

WebTrader:
• Access via Browser: Go to the WM Markets website and navigate to the WebTrader section.
• Login: Enter your account credentials directly in the browser interface without needing to download any software.
