How can I receive news on the MT5?

Trading Platform · https://en.wmmarkets.com/knowledge-base/trading-platform/how-can-i-receive-news-on-the-mt5/

To stay updated with the latest news on the MetaTrader 5 (MT5) platform, follow these steps:

Enable News Updates:

Go to the 'Tools' menu in the top navigation bar.
Select 'Options' from the dropdown menu.
In the 'Options' window, navigate to the 'Server' tab.
Check the box labeled 'Enable News' to activate news updates.

Viewing News:

Open the 'Toolbox' window by pressing Ctrl+T or navigating to 'View' > 'Toolbox' in the menu.
Go to the 'News' tab in the 'Toolbox' window. Here, you'll find a list of incoming news items, including their:
Time of arrival.
Topic.
Category.

Reading News:

Double-click on any news item to open and read the full details.
To organize or save news items, right-click on a news entry to:
Copy it to your clipboard.
Customize the display of news categories.

Customizing News Feeds:

Some brokers offer the ability to filter or select specific news categories or sources for a more personalized experience. Check with WM Markets if this feature is available to tailor your news feed to your trading needs.

These steps ensure you can seamlessly access relevant updates and stay informed about market events directly from your MT5 platform.
