Is it better to have higher or lower leverage?

Trading · https://en.wmmarkets.com/knowledge-base/trading/is-it-better-to-have-higher-or-lower-leverage/

The higher the leverage, the higher the risks and the possibility of relevant profits and/or losses. A lower leverage is more suitable for retail clients with less experience taking into consideration that trading with financial instruments offered by the Company involves high level of risk. More information is available in the “Trading Conditions” under Legal Documents in your Portal.
